Uniform Residential Appraisal Report

103330336 555353 File #

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Uniform Residential Appraisal Report

103330336 File # 555353

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

103330336 File # 555353

Uniform Residential Appraisal Report

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Supplemental Addendum [Multi-page]

Appraiser Fee: \$300

Subject Section

The Intended User Of This Appraisal Report Is LoanDepot.Com LLC. The Intended Use Of This Appraisal Report Is For The Identified Lender/client To Evaluate The Property That Is The Subject Of This Appraisal For A Mortgage Finance Transaction Only, Subject To Stated Scope Of Work, Purpose Of The Appraisal, And Definition Of Market Value. No Additional Intended Uses Or Users Are Identified Or Intended By The Appraiser. The Borrower Is Not Considered An Intended User Of This Appraisal Report. This Appraisal Report Was Not Written For Insurance Purposes And Must Never Be Utilized For Insurance Purposes.

The Estimated Land Value Exceeds 30% Of Appraised Value. The Land To Value Ratio Is Typical Of The Neighborhood And Is In Line With Assessed Values And Comparable Land Sales In The Market Area. The Higher Than Typical Land Value Is Due To Positive Locational Factors And Has No Effect On The Value And Marketability Of The Subject

"Other" Land Use

The Five Percent Land Use Indicated As "Other" In The Neighborhood Section Of This Report Are Recreational Facilities In The Neighborhood (Park And Open Space).

Disclosure

Appraiser Is Not A Home Inspector And This Appraisal Is Not A Home Inspection. The Appraiser Only Performed A Visual Observation Of Accessible Areas And The Appraisal Report Cannot Be Relied Upon To Disclose Conditions And/or Defects In The Property. The Floor Area Estimate Should Be Considered An Approximation. Minor Deviations In Actual Square Footage Are Of Little Or No Value Consequence. Physical Depreciation Reflects Both Incurable Forms Of Depreciation Combined In Physical Depreciation And Is Estimate Via Application Of The Age-life Method. No Excessive Functional Or External Obsolescence Noted.

Predominant Value

The Subject Property Market Value Is Above The Predominant Property Values Due To Its Gross Living Area Compared To The Gross Living Area Of The Predominant Properties In The Subject Neighborhood. The Neighborhood Is Made Of Wide Variety Of Properties With Difference Size, Design, Quality Of Construction And Condition. The Subject Property Is Not An Over Improvement In The Neighborhood.

The Reasonable Exposure Time For The Subject Property At The Opinion Of Value Indicated Is Estimated To Be About 90 Days And Was Derived Using The Typical Market Time Of Sale In The Subject Neighborhood And The Exposure Time Of Comparable Listings. The Nature Of Sales Were Also Taken Into Consideration.

1004mc

Appraiser Was Unable To Provide The Necessary Data Where "Not Available" Are Indicated For The "Total # Of Comparable Listings" And "Months Of Housing Supply (Total Listings/ab. Rate)" And "Median Comparable Listings Days On The Market" Due To Unavailability Of Such Data In The

The Unavailability Of The Data Makes It Impossible To Establish A Trend Information, Hence The Checkboxes For Those Columns Are Not Checked.

Appraiser Independence Disclosure (Air)

No Employee, Director, Officer Or Agent Of The Lender, Or Any Third Party Acting As A Joint Venture Partner, Independent Contractor, Appraisal Management Company, Or Partner In Behalf Of The Lender Has Influenced Or Attempted To Influence The Development, Reporting, Result Or Review Of This Assignment Through Coercion, Extortion, Collusion, Compensation, Instruction, Inducement, Intimidation, Bribery Or In Any Other Manner. I Have Not Been Contacted By Anyone Other Than The Intended User (Lender/client As Identified On The First Page Of The Report), Borrower Or Designated Contact To Make An Appointment To Enter The Property. I Agree To Immediately Report Any Unauthorized Contacts Either Personally By Phone Or Electronically To Partner Management

Uspap Prior Service Disclosure Statement

The Appraiser Of This Report, As Indicated In The Signature Section, Has Not Provided Or Performed Any Services As An Appraiser Or In Any Other Capacity Regarding The Property That Is The Subject Of This Report, Within The Past Thirty-six Months Immediately Preceding The Effective Date Of This Report.

Firrea Certification Statement

The Appraiser Certifies And Agrees That This Appraisal Was Prepared In Accordance With The Requirements Of Title Xi Of The Financial Institutions, Reform, Recovery, And Enforcement Act (Firea) Of 1989, As Amended (12 U.s.c. 3331 Et Seq.), And Any Applicable Implementing Regulations In Effect At The Time The Appraiser Signs The Appraisal Certification

This Appraisal Report Complies With All Interagency And Evaluation Guidelines

The Remaining Economic Life Is 51 Years.

The Subject Property Is Located Approximately 19 Miles From The Appraiser's Office

Site Dimensions (When Provided)

The Site Dimensions Indicated In The Site Section Of This Report Are Approximate Lengths Of The Sides That Make Up The Perimeter Of The Subject Property's Site. The Dimensions Were Obtained Either From Measurement From The Map In The County Records Or From The Geographical Information System (Gis)

Where Site Dimensions Are Not Provided, It Is Due To The Unavailability Of A Plat Map From The Online County Or City Records. Since It Can Not Be Left Blank, The Lot Size In Acreage Is Indicated In That Field.

Bathroom Update - Updateable Components (Flooring, Wainscoting, Bathtub, Toilet And Vanities)
Renovated- When All Updateable Components Of All The Bathrooms Have Been Updated Or When A Bathroom Is Fully Renovated

Updated - When Some, But Not All, Of All The Updateable Bathroom Components Have Been Updated

Not Updated - When None Of The Updateable Components Of All The Bathrooms Have Been Updated.

Kitchen Update - (Flooring, Countertop, Appliances And Cabinet)

Renovated- When All Updateable Components Of The Kitchen Have Been Updated Or When They Are Appear To Be In Like New Condition Updated - When Some Of The Major Updateable Components Of The Kitchen Have Been Updated.(cabinet, Flooring, And Countertop) Not Updated - When None Of The Updateable Components Of The Kitchen Have Been Updated.

Adjustments (As Of The Effective Date Of This Report)

Analysis Of The Subject Subdivision Indicate That Adjustment For A Bedroom And A Full Bath Is \$10000, And For A Half Bath Is \$5000.

Adjustment For A Recreation Room In The Basement If \$10000 And For A Basement Bedroom, Den Or Full Bath Is \$6000.

Adjustment For A Fully Renovated Kitchen Or Bathroom Is \$20000, While For An Updated Kitchen Or Bathroom Is \$10000. Adjustment For Exterior Amenities, Such As Deck, Porch Or Patio Is \$5000.

Lender LoanDepot.Com LLC				

Smoke/carbon Monoxide Detectors

State Guidelines Require That Smoke And Carbon Monoxide Detectors Be Present On Every Level Of The Subject Property. Smoke And Carbon Monoxide Detectors Are Present On Every Level Of The Property And Are Functional.

State Guidelines Does Not Require Water Heater To Be Double Strapped.

Subject Property And Comparable Properties' Gross Living Area (Above Grade Square Footage)

The Square Footage For The Gross Living Area Of The Subject Property Was Measured By The Appraiser In The Field And Is Quite Similar To The Subject Property's Square Footage In The County's Online Real Estate Tax Records.

The Square Footage For The Comparable Sales And Listings Were Obtained From County's Online Real Estate Tax Records.

Unless Otherwise Noted In This Report, The Appraiser Has Conducted An Interior Inspection Of The Subject Property

Subject Pud Amenities

Common Area Maintenance, Management, Master Insurance Policy, Reserve Funds, Basketball Courts, Community Center, Exercise Room, Jogging / Walking Path, Swimming Pool, Tennis - Courts, Tot Lots / Playground, Snow Removal, Trash Removal

Comparable Pud Amenities

Common Area Maintenance, Management, Master Insurance Policy, Reserve Funds, Basketball Courts, Community Center, Exercise Room, Jogging / Walking Path, Swimming Pool, Tennis - Courts, Tot Lots / Playground, Snow Removal, Trash Removal

There Is Virtually No Difference In Hoa Amenities Between The Subject's Pud And The Comparable Sale/listing's Pud, Hence No Significant Effect On Value And Marketability Of The Subject Property As Of The Effective Date Of This Report.

The "Highest And Best Use" Of A Property, As Defined By The Appraisal Institute In The Appraisal Of Real Estate, Fourteenth Edition Is "The Reasonably Probable And Legal Use Of Vacant Land Or An Improved Property, Which Is Physically Possible, Appropriately Supported, Financially Feasible, And That Results In The Highest Value."

The Property Is Zoned Residential With, As Of The Effective Date Of This Appraisal Report, Little Or No Possibility Of A Land Use Change. The Structure Is Compatible With The Market Area, All Of Which Is Primarily Zoned For Residential Occupancy So No Other Use Would Be Possible. The Highest And Best Use Of The Site As Though Vacant And Property As Improved Are Generally Consistent With, And Similar To, Surrounding Uses Within This Market Area. Single Family Residential Use Is Considered To Be The Subject's Highest And Best Use

Disclaimer

I Have No Present Or Prospective Interest In The Property That Is The Subject Of This Report, And I Have No Personal Interest Or Bias With Respect To The Parties Involved. My Compensation Is Not Contingent On An Action Or Event Resulting From The Analysis, Opinion Or Conclusions In, Or The Use Of, This Review Report. My Analysis, Opinions And Conclusions Were Developed, And This Report Has Been Prepared, In Conformity With The Uniform Standards Of Professional Appraisal Practice.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

Co

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminish d due to condition, but the dwelling remains useable and functional as a residence.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Quality Ratings and Definitions

Ω1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinement s and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Ω2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

$\label{limited to limited to linduce to limited to limited to limited to limited to limited to l$

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.
